PROFESSIONAL SUMMARY

AI Engineer specializing in AI automation, intelligent systems, and full-stack application development. Experienced in building AI-powered solutions, workflow automations, API integrations, and scalable software using modern AI and development technologies. Passionate about turning complex problems into practical, efficient, and production-ready solutions. Currently contributing to AI-driven projects at Bristol Mayer Biotech (Private) Limited.

TECHNICAL SKILLS

Programming Languages: Python, C#, PHP, MySQL.
AI/ML Frameworks: Scikit-learn, TensorFlow, Hugging Face, Groq.
AI & Automation Platforms: LangChain, n8n, Voice flow, Botpress, Streamlit
Deployment & DevOps (CI/CD): Docker, GitHub Actions, Vercel, Hostinger, Git/GitHub, REST APIs.
Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau
Platforms & Tools: LangChain, Streamlit, Google Colab, Jupyter Notebook.
Other: VS Code, DBeaver, XAMPP, Postman, Blender, Adobe Premiere Pro, Microsoft Office

WORK EXPERIENCE

AI Engineer | Bristol Mayer Biotech (Pvt.) Ltd. | Jan 2026 – Present

- Developing AI-powered solutions, automation workflows, and intelligent applications to optimize internal business operations and reduce manual tasks..
- Built and deployed **Bristol Cosmetics E-Commerce Platform** (Next.js, FastAPI, MySQL, Cloudinary) featuring secure JWT auth, role-based admin panel, and real-time inventory tracking.
- Developed the official **BMB Pakistan Portfolio Website & Admin CMS** (PHP 8.2, MySQL, Bootstrap 5) with automated CI/CD deployment pipelines via GitHub Actions and Hostinger.
- Contributing to the core **Enterprise ERP System** (`bristol.pk`), developing new business modules, cascading tour plans, visit schedules, and performing continuous bug fixing and backend optimization.
- Developed an **AI Product Chatbot API** using Python and modular agent architecture with a serverless Vercel backend.
- **Portfolio Hub & Live Projects:** muhammadumeriqbal.com

AI Chatbot Developer | Huawei Certification Training Program (NAVTTC Collaboration)

- Built AI-powered applications using LangChain, Streamlit, and Ollama.
- Developed custom chatbot with memory, temperature tuning, and UI customization.
- Created Multi-Agent Task Force system for policy, dataset, and innovation insights.
- Designed RAG-based Q&A; system enabling PDF knowledge retrieval.
- GitHub: github.com/Umer-206/Multi-Agent-Task-Force

AI Developer Intern | Alpha Network – Team Next Internship Project

- Developed **One-Click Reordering Assistant**, an AI-powered solution for e-commerce platforms.
- Implemented **Collaborative Filtering (SVD)** for personalized product recommendations.
- Applied **Apriori Algorithm (Association Rules)** for smart bundling (pairs & triplets).
- Processed e-commerce datasets (Kaggle), handled preprocessing & feature engineering.
- Evaluated models using **Precision, Recall, F1-score**, ensuring robust performance.
- Delivered recommendation outputs & bundling rules with valid accuracy reports.
- GitHub: Reordering-Assistant

Web Developer Intern | MH Technology

- Built login/signup modules and CRUD operations using Laravel & PHP.
- Designed MySQL schema and collaborated with frontend team for integration.

PROJECTS

AI Engineer | Bristol Mayer Biotech (Private) Limited || Jan 2026 – Present

- Develop **AI-powered solutions, automation workflows, and intelligent applications** to improve business efficiency and reduce manual work.
- Built a **full-stack e-commerce platform** using Next.js, TypeScript, FastAPI, Python, and MySQL, including inventory, orders, customers, reviews, returns, notifications, and an AI chatbot.
- Develop **AI customer-support and email automation workflows** using LLMs, LangChain, and n8n to automate repetitive tasks and customer interactions.
- Contribute to the company's **ERP system**, developing business features, process automation, APIs, and system improvements.
- Develop and integrate **REST APIs, databases, authentication, role-based access, notifications, and third-party services** including Cloudinary, WhatsApp, and email.
- Tech stack: **Python, FastAPI, Next.js, TypeScript, MySQL, LangChain, n8n, LLMs, REST APIs, Git/GitHub**.

Bristol Cosmetics – Full-Stack E-Commerce Platform | Next.js 14, TypeScript, FastAPI, Python, MySQL

- Developed a full-stack cosmetics store with Next.js frontend and FastAPI backend.
- Implemented secure JWT auth, role-based admin panel, and real-time inventory tracking.
- Integrated Cloudinary CDN for image optimization and automated SMTP email notifications.
- Added AI chatbot and WhatsApp widgets for live customer support.
- Live Demo: https://bristolcosmetics.com/

BMB Pakistan Portfolio Website | Bootstrap 5, PHP 8.2, MySQL, Docker

- Developed and deployed the official company website and full-featured Admin CMS for managing products, portfolio divisions, enquiries, and career applications.
- Built a secure backend using **core PHP 8.2 (PDO)** with robust authentication, role-based access control (Super Admin, Admin, Staff), CSRF protection, and libsodium encryption.
- Implemented automated CI/CD deployment pipelines using **GitHub Actions and rsync** to seamlessly push updates to the live Hostinger staging environment.
- Integrated cross-cutting features including server-side pagination, maintenance mode, PHPMailer for SMTP notifications, and activity logging.
- Live Demo: https://staging.bmbpakistan.com/
-

Bristol Mayer Biotech (Pvt.) Ltd. – Enterprise ERP System | *PHP, MySQL, Full-Stack Development*

- Contributing to the modernization and development of the company's core enterprise ERP system, building new business modules, workflows, and role-based dashboards.
- Implementing advanced ERP features including cascading tour plans, visit schedule modules, and multi-tiered approval chains for medical and sales operations.
- Performing rigorous bug fixing, code optimization, and database maintenance to ensure high availability and seamless data integrity across internal departments.
- **Live ERP Portal:** bristol.pk

One-Click Reordering Assistant | Alpha Network Internship

- AI-powered e-commerce solution for reordering and smart bundling.
- Implemented Collaborative Filtering (SVD) and Apriori-based rules.
- Delivered 10 personalized product recommendations per user.
- Improved bundling efficiency with metrics like Precision, Recall, F1-score.

YouTube-Video-Summarizer-Agent

- Streamlit app summarizing YouTube videos via AI transcript parsing.
- Features include summary download, history tracking, and branded UI.
- GitHub: YouTube-Video-Summarizer-Agent

AI Customer Support Assistant| Voice flow Integration

- Designed and deployed an AI-powered assistant to help customers with **product inquiries, pricing details, and FAQs**.
- Integrated both **voice and text-based conversations** for seamless interaction.

- Embedded the assistant into a **custom HTML/JavaScript project** for real-time customer support on a store website.
- Enhanced user experience by automating responses and guiding customers through available store products.

WhatsApp Restaurant Chat Assistant | (n8n + AI)

- Developed an **intelligent WhatsApp chatbot** for restaurants using **n8n workflow automation**.
- Integrated **Gemini AI** with **Google Sheets** to provide live menu updates, answer FAQs, and manage orders.
- Automated the order-taking process by logging customer orders directly into Google Sheets.
- Improved customer experience with **instant support, real-time menu updates, and seamless order management**.
- **Technologies Used:** n8n, Gemini AI, Google Sheets, WhatsApp API

AI Medical Booking System | DeepVision.AI

- Voice-based appointment booking using ElevenLabs + VAPI.
- Automated workflows in n8n for booking, emails, and data storage.
- Twilio call handling + Google Sheets logging.
- Provides appointment confirmation & basic OTC medicine guidance.

EDUCATION

BS Gaming & Multimedia	Superior University Gold Campus Lahore | 2021 – 2025 | CGPA: 3.3
Intermediate (ICS with Physics)	Punjab Group of Colleges | 2020 – 2021
Matric (Computer Science)	Allied School Gulberg | 2018 – 2019

CERTIFICATIONS

One Million Prompters Initiative	Dubai Future Foundation / Dubai Centre for Artificial Intelligence
Huawei AI Certification	(NAVTTC Collaboration)
Diploma in Cinematography & Video Production	University of South Asia
Huawei Certified Cloud Developer Associate	Artificial Intelligence (HCCDA-AI)
AI and Career Empowerment	University of Maryland, Robert H. Smith School of Business
n8n Course: No Code AI Agent Builder	Simplilearn
Data Science & Analytics	HP LIFE
AI for Business Professionals	HP LIFE
Scrum Fundamentals Certified	
Programming in Python
